Tips for advising first-year honors students

- Encourage students to take an honors course in the Fall
- Look for honors courses in the student's major or that fill GenEd and CASE requirements. For example:
 - A student in the School of Education could take EDUC-H 205 for honors
 - A student could fill their GenEd A&H requirement by taking HON-H 233
- Encourage students to take an HON-H course, but note that seats may be limited
